All,

Attached is the most recent estimate of the total costs for ASPECT support to the ITC response. If the crew stays in the area for the additional two weeks and flights are similar to the last few this should be a good estimate. If we have a sudden increase in flights this may need to be increased again. Call my cell phone if you have any questions. I will be working with the contract office to make some changes to the task order and get the ceiling increased.
